

EDUCATION

Learning & Opportunity

The Foundation invests in agricultural education and learning experiences that expand knowledge, increase access, and create meaningful opportunity within agriculture. This work includes:

- Scholarships
- Agriculture in the Classroom
- Educational grants and initiatives
- Research that advances agricultural understanding
- Career pathway exposure and exploration programs

Education ensures individuals have the knowledge and opportunity necessary to participate in and contribute to the agricultural industry.

LEADERSHIP

Development & Capacity

The Foundation develops and strengthens leaders who will guide agriculture and rural communities through investment in training, professional development, and capacity building initiatives. This work includes:

- Leadership development programs
- FFA leadership initiatives
- Youth leadership grants
- Professional development aligned with agriculture
- Internships that build industry capacity

Leadership development builds capacity necessary for agriculture and rural communities to adapt, grow, and sustain themselves.

COMMUNITY

Vitality & Partnership

The Foundation strengthens rural vitality by supporting partnerships, initiatives, and resources that sustain agriculture and the communities that depend upon it. This work includes:

- Strategic community partnerships
- Rural support initiatives aligned with agriculture
- Workforce pipeline collaborations
- Community-based investments tied to agriculture sustainability

Strong agriculture depends on strong communities, collaborative partnerships, and shared investment in rural vitality.
